

## **Toddler Summer Camp Themes**

### ***Join Our Exciting Summer Camps!***

Make this summer unforgettable for your child! Enroll now to secure your spot! Please view the weekly themes below.

Week 1 (June 29 - July 3)

#### **Artists Around the World!**

Get ready to travel around the world! In this camp, our campers will explore colors, textures, and materials in a joyful and meaningful way. Using their hands and simple tools, they will practice fine motor skills, creativity, and independence while making art. We will gently introduce art from different places around the world, helping children begin to notice and appreciate the beauty of our diverse world at their own pace.

Week 2 (July 6-10)

#### **Under the Sea**

Diving in and going under! Here we will explore the deep blue sea—from the smallest to the largest ocean creatures and everything in between. Children will enjoy rich sensory experiences, water play, ocean-themed art, music and movement and hands-on discovery with shells, sand, and sea life, all designed to spark curiosity, independence and wonder.

Week 3 (July 13 – 17)

#### **Melodies and Music**

Jump, stomp and clap! Come with us as we learn about sound, rhythm, and moving our bodies in a joyful and meaningful way. Using songs, simple instruments, and intentional movement, children will practice coordination, balance, and body awareness while developing concentration and self-expression. These experiences support toddlers' natural love of movement and can help foster a calm appreciation for music as part of their daily work.

Week 4 (July 20 – 24)

#### **Little Architects**

Ready, set, build! Campers will build, stack, and explore with blocks and hands-on materials as they discover how things balance and fit together. Through joyful building and constructing,

children strengthen coordination, concentration, and creativity while working independently and alongside friends. Simple stories about buildings around the world will spark curiosity and imagination as little builders learn through play.

Week 5 (July 27 – 31)

### **Wild About Animals**

From the jungle to our homes and everything in between, we will explore animals in our world. Using simple art & movement activities, sensory play, and playful exploration, children will discover how animals live, eat, and move—nurturing curiosity, independence, and a growing love for the natural world. We may even welcome a few special visitors along the way!

Week 6 (August 3 – 7)

### **Water In Our World**

Let's have fun getting wet! This camp invites toddlers to explore water and where we find it in our everyday world—rain, rivers, oceans, puddles, and even at home. We will enjoy gentle water play, pouring and scooping work, sensory exploration, simple science experiences, art, and outdoor movement.

Week 7 (August 10 - 14)

### **Calling all Puppeteers!**

This summer, our toddlers step into a gentle world of storytelling through puppetry, movement, and imaginative play. Using simple hand puppets, felt figures, and shadow play, children explore stories in a calm, joyful way that honors their natural curiosity and love of repetition. Each day invites toddlers to watch, touch, move, and create, building confidence as they bring stories to life—one small scene at a time.

Week 8 (August 17 – 21)

### **Shamrock Olympics**

The Shamrock Olympic Summer Camp invites our toddlers to move, explore, and play through simple games inspired by the joy of the Olympics. We will run, jump, balance, and stretch as we try fun activities designed just for little bodies. With lots of encouragement and cheering from friends, this will help build confidence, coordination, and a happy love of movement—all in a playful, supportive environment.
